

PUBLIC WORKS STAFF REPORT

MEMO DATE:	May 3 rd , 2019
MEETING DATE:	May 6 th , 2019
TO:	Village Board
FROM:	JJ Larson, Director of Public Works & Utilities
RE:	2019 Village Street Repaving

BACKGROUND

The 2019 Capital Budget, for the first time, included an allocation for street repaving work. The Public Works Department identified the areas deemed most appropriate given the condition, traffic, visibility and budget. On April 2, the Public Works & Properties Committee voted unanimously to approve the 2019 street repaving plan.

OVERVIEW

The area identified is a section of Southing Grange immediately south of Cottage Grove Rd. to the newly paved area south, and Weald Bridge from that Southing Grange intersection east to Clearbrooke. Each street is showing signs of serious wear, failed maintenance treatments and increasing potholes.

We requested proposals for a 2" milling and repaving of these areas as well as a unit price for any additional work that may be fit into the budget. We received three bids (bid breakdown included in your packet) with Wolf Paving being the lowest overall and lowest unit price.

STAFF RECOMMENDATION

I recommend that the Board award the 2019 Village of Cottage Grove Street Repaving work to Wolf Paving.
