MEETING DATE: November 4, 2019

TO: Village Board
Matt Giese, Administrator

FROM: Lisa Kalata, Clerk

RE: **Village Website Redesign**

OVERVIEW/BACKGROUND

The Village contracted with CivicPlus in 2016 for the new website and after 48 months of continuous service we are entitled to a no-cost redesign of the website. We are at that mark and can start the process of the redesign in February 2020. As you can imagine with the ever-changing world of technology, a lot has changed in the last four years, so there are a lot of enhancement that will be made to the website. Along with the redesign, the CDA had hired a photographer to do some aerial photography that will be added to the redesign as well.

Staff has assembled a team that will be working with CivicPlus on the redesign project with a timeline to be determined. At this point we are working to clean up the current content and will begin the process in February. Updates will be provided along the way to the Board.
