**c. Discuss procedure for Public Comment.**

Ratcliff explained the current public comment form that is used has been turned in days prior to board meetings and handed in right before a meeting and people do not stay for the meeting, she would like to discuss how the form is used by the board. Lennberg commented that he would like to hear from the residents but if they are not attending the meeting, it is hard to understand if the topic is really an issue. Murphy asked if there was a comment section, because if people are working during the meeting times it would be hard to attend but could use the form to express their concerns. Murphy would like to have more than just yes or no on the form to encourage more engagement. Valencia also commented that in favor or against is confusing, so more explanation would be helpful. Giese indicated that a line for a signature could be added as well. Williams asked if we could add to the current form to include a comment section. Attorney Boushea indicated that they could modify or have two forms, but one would be less confusing, and he would suggest not limiting the form and availability. The board would like to revise the current form by adding a comment section, signature line and bring back to next meeting for review.

**9. Reports from Village Boards, Commissions & Committees**

**9.I. Public Works & Properties Committee**

**a. Update on Main Street bike path project.**

Maloney was present to give an update on the Main Street bike path project. The Village has received a grant from Dane County in the amount of $182,500 and we are trying to keep the village cost to the other half, however Public Works Committee and Utility Commission have approved to add curb and gutter, storm sewer and have the bike path urbanized. The challenge is because of the ditches that run along the route of the bike path this has added additional costs for the project along with the curb, gutter and storm sewers, so the funding will allow for only half the project, however Dane County is in agreement of the work and suggested to apply for another grant next year to complete the bike path to the roundabout by the interstate. Dane County would like to then connect the trail to McCarthy park and link back to Glacial Drumlin trail.

Murphy reported they discussed the Shady Grove concept plan, discussed cross connection inspections, discussed credit for sewer when there has been a leak and will draft a policy that will be discussed at next meeting.
