

# Village of Cottage Grove

---

Department of Public Works

Director's Monthly Report to the Public Works & Properties Committee

March 2, 2021

## **Clark & Grove St. Reconstruction Project**

Village Engineer and legal team working on agreement with property owner for stormwater pond.

## **Main Street Bike Path – Phase 2**

MSA will be submitting a PARC grant application for the Village.

## **Village Storm Water - MS4 Report**

I have been updating/developing Storm Water Pollution Prevention Plans for our Village facilities, as well as updating our Illicit Discharge Detection and Elimination Program and our Information and Educational plans related to storm water. All is a part of the more stringent requirements per DNR of MS4 communities. Required to present the annual report to the Village Board and submit to the DNR by the end of March.

Plan to bring back our Storm Water Intern again to continue the good inspection and information & education work that individual did for us last year.

## **Snow**

As of this writing, snow is melting fast and our crews are clearing inlets.

## **Road Salt usage**

I've had a few Board members ask about the pilot area and if we've gotten any negative feedback (we have not). Also had quite a few inquiries about plans to expand the program, so it's looking like we'll have the support needed to continue to reduce salt use in the coming years.
