

# Village of Cottage Grove

---

Department of Public Works

Director's Monthly Report to the Public Works & Properties Committee

April 6, 2021

## **Clark & Grove St. Reconstruction Project**

Village Engineer and legal team working on agreement with property owner for stormwater pond.

## **Main Street Bike Path – Phase 2**

MSA will be submitting a PARC grant application for the Village.

## **Village Storm Water - MS4 Report**

Annual report submitted. The Village now has more formalized, documented processes and procedures for all aspects of storm water management. We also have a much more robust system of documenting, recording and reporting inspections, maintenance activities, etc.

## **Snow & Ice Control Policy**

The approved Snow & Ice Control Policy hasn't been updated since 2011. Given the success of the salt reduction program and the plans to expand it, I plan to update the Snow & Ice Control Policy and bring it to this Committee in the coming months. A few items of note to be addressed:

- Update of map/class of streets
- Identify areas that will be treated (salt/brine/other) – hills busy intersections, etc.
- Update mailbox policy

## **Street sweeping**

We were able to get an early start sweeping some of our main streets. We were also able to get the unit into the vendor for the annual inspection and maintenance early this year, so we are off to a good start.
