1/24/2022 Teacher A teacher reported that someone had urinated in the elevator. I was able to pull up surveillance footage and find two students who were responsible. I gave the names of the students to administration, and they took care of the incident. It is possible that it was not urine and was water from a water bottle.

1/26/2022 Administration For the past two days there has been issues with staffing and supervision in the lunchroom due to staff members being out ill. I was asked to help, so I did. I saw several issues with kids throwing food and just making a mess and being disrespectful to adult staff members. I talked with those students, and they finally did what they had been asked to do. I also had some sweep up their area because they were just throwing food on the ground and laughing about it. Today a 7th grader was smearing food all over the window, so I handed him a rag and made him clean the window. I was also approached by a 7th grader and asked if "gang banging a child" was illegal. I told administration what this student had said and how they were talking, and they talked with the student.

1/31/2022 Officer (non-enforcement) Student of Color 01/27/2022 - A former GDS student who I had a great relationship with has been struggling at the high school and at home. The mother had contacted me several times in the evening asking for guidance and assistance at times and I had helped her. I asked her if it would be okay if I were to pick up her child from the high school and bring him to GDS to have lunch with him and talk with him. She was more than okay with that. I okayed this also with the HS and MS Principals. I brought the student to GDS and ordered their favorite food, Pizza Hut wings, and we had a great talk and they were able to connect with people who helped here at GDS.

1/31/2022 School Psychologist The school psychologist came to me with a student concern. She said that the student had reported a sexual assault that occurred between them and another GDS student. The school psychologist said that the student had some questions and wanted to talk with me. I met with the student and learned that this incident occurred in the City of Monona. The student told me that both sets of parents were aware of the situation. I talked with the student for some time and gave them some options to talk with

people if they were still struggling. The student thanked me and left. I have since seen this student in the hallways and at lunch and they have a smile on their masked face and way hello and wave.

2/2/2022 **Officer (non-enforcement)** I was in my office and heard a scream out in the hallway outside of my door. I looked into the hallway and saw an 8th grade student whom I know from past contacts. I asked them if they were okay, and they told me that they

were not. I had the student come into my office so that they could calm down and not have other students see them. I gave them a pass to class and there were no other issues.

This teacher has been getting hit repeatedly from a student and the teacher feels as though they are not being supported. I talked with the Special Education teacher, and we will set up a meeting for the three of us to come up with a strategy to help the child and the family with these issues to get them to stop.

2/3/2022 **Student** **Student with IEP (if known)** A student with special needs came into the front office and was messing with buttons. This is a student who likes to pull the fire alarms. 2/3/2022 **Officer (non-enforcement)** I talked with a group of 8th grade boys about their lack of respect towards teachers in the morning when they are asked to throw away their garbage from breakfast. This is a group that is a mix of white students and students of color. One of the students of color told me that it was Black History Month and that he didn't have to pick anything up. I told him that it didn't matter that it was Black History Month and that he still needed to pick up his messes. He was later talked to by James Kamoku and myself and I told him that he was right about it being Black History Month and that he should respect the month and what it really represents. He apologized and said that he didn't mean any disrespect.

I contacted the Monona SRO as well as Child Protective Services. This student said that they were safe from any further assaults and that parents were aware. I assured this student that if they needed anything that they could always come to the office for help.

He seemed concerned about people coming to the school and "shooting up the school". This student's father does not live in the Village of Cottage Grove. I notified the proper jurisdiction for investigation.

In checking the cameras, I was able to see that this same vehicle was driving around the parking lot of the school at 0200 hours and driving up on the sidewalk area by the front door. 2/10/2022 **Teacher** **Student with IEP (if known)** A special education teacher came to me asking for help with one of their students who I have a good relationship with. They said that the student had left the classroom and was now sitting in a stairwell refusing to go with the teacher. I have a large stuffed bear in my office that I know this student likes. I took the bear to the stairwell and gave it to the student. He then came with me to my office where he was able to sit and relax.

This student called the teacher a "punk ass N****r" and stated "do you wanna fucking go" as in fighting them. This student was suspended for their behavior and was told to leave the building. The student initially refused to go but was told that they needed to leave on their own or they would be physically removed. The student decided to leave on their own. There have been several instances with this student, and they are a danger to staff and students.

The student was again refusing to do their work and not listening to the teacher. The student threatened the physical safety of the staff member and threatened to kill them. The teacher radioed for me and as soon as the student heard the teacher call for me, the student decided that they would listen and do what they were supposed to do. This happened while I was at

This claim was found to be unsubstantiated. I notified CPS of the report.

3/4/2022 **Family Student of Color** I was contacted by a family of a student whom I have helped since the student was a 5th grader. The student is now a freshman at MGHS. The parent was asking for assistance as the student was at the high school but was not supposed to be
