Project Overview

The CTH N & School Road Improvements project will take place during the 2017 construction season. This project will consist of widening and signaling the intersection. Work will also include new medians, concrete sidewalk, curb and gutter, storm sewer and restoration of all disturbed areas.

During the project, traffic control will be installed and will include a 4-way stop at CTH N & School Road as well as the shifting of traffic to construct the proposed improvements. A reduced speed limit will be enforced.

Tentative Traffic Shifting Schedule

Phase 1 – Approximately July 31, 2017 to August 21, 2017

Two-way traffic will shift to the east side of CTH N while construction is happening on the west side of CTH N.

Phase 2 – Approximately August 22, 2017 to September 11, 2017

Two-way traffic will shift to the west side of CTH N while construction is happening on the east side of CTH N.

Phase 3 – Approximately September 11, 2017 to October 13, 2017

Two-way traffic will split to the outside lanes of CTH N while the medians are being constructed.

*All dates listed above are approximate and subject to weather conditions.

Your patience and understanding throughout this project is appreciated.
